

# WASTELINE

A Publication for GreenWaste Recovery Commercial Customers

Summer 2016

## Cardboard Overload!

Are you dealing with excess cardboard and don't have enough space in your recyclables container? Not to worry, we have solutions for you! First, make sure your cardboard is broken down and flattened to fit neatly inside the container. Unbroken boxes take up unnecessary space. If you still have extra cardboard flatten the cardboard, tie it in a secured bundle no larger than 3' x 3' x 3' and place it next to your regularly serviced container. Additional charges apply, so call Customer Service to schedule. Please do not place loose cardboard out for pick up. Loose cardboard is difficult to collect, creates roadside litter and will not be collected.

Do you regularly have extra cardboard? It may be time to rethink your recyclables service collection level. Contact our Customer Service Department to schedule an on-site visit with our Outreach Team. An Outreach Coordinator will help you determine the solution that works best for your business.

## Recyclable Materials can be Mixed Together

Recycle

Paper, Plastic, Film Plastic (bagged), Glass, Metal

The days when your recyclable paper needed to be collected separately from your soda cans are gone. GreenWaste collects recyclables all together in one service container. Additionally, GreenWaste collects a wide range of recyclables, perhaps more than you were even aware of! With so many new materials accepted, check out our recycle guide to make sure you are tossing all recyclable materials together into your blue recyclables container.

### DELIVER IT

Bring your payment to our Watsonville office.  
We accept payments Monday through Friday  
8AM-5PM.  
375 Industrial Rd.,  
Watsonville, CA 95076

# New Mattress Recycling Program

The Monterey Regional Waste Management District now offers free or reduced disposal on mattresses and boxsprings to residents and businesses within the Monterey Peninsula.

Illegal dumping of mattresses and boxsprings have been an issue within communities across the Monterey Peninsula. Not only are they unsightly and potential health hazards, but they cost the cities a great deal of money to collect and dispose of when illegally dumped. A new state program has been developed in an effort to help provide cost effective ways for residents and business owners to properly dispose of these items. Effective January 1, 2016 the California Mattress Recycling Program has established a producer responsibility program to cover the cost of mattress recycling. Consumers now pay a recycling fee when purchasing a new mattress, which helps fund proper recycling of old mattresses and box springs.

The following options are now available at Monterey Regional Waste Management District in Marina:

Residents: Free drop off of 5 or fewer mattresses or boxsprings from residents only.

Commercial/Businesses: Charge of \$5.00 for each drop off of a mattress and box spring.

For more information, please contact Monterey Regional Waste Management District.

## Rate Adjustment Reminder

Effective July 1, 2016 an annual rate adjustment was applied to your collection services. For more information on annual adjustments please contact Customer Service at 831.920.6707 or visit us online at [www.greenwaste.com](http://www.greenwaste.com).

## Recycle More to Save Money!

Good News! Businesses in the City of Sand City can save money by recycling.

Because recycling service is 85% less expensive than trash service, businesses can save a significant amount of money by subscribing to and participating in an effective recycling program. GreenWaste offers free technical assistance to businesses at every turn to help dial in services, lower bills and increase participation in the recycling program.

### We are here to help!

If you need assistance establishing or improving a recycling program, contact us at 831.920.6707. We are committed to helping local businesses reduce waste and recycle.
