

Commercial Clean Up Day Program

Businesses receive one free Clean Up Day for the collection of up to four bulky items once per calendar year.

Reuse First

Businesses are encouraged to donate all reusable items/furniture prior to scheduling their annual Clean Up Day. Reusing is an essential component of zero waste.

Clean Up Day

The Clean Up Day program provides businesses with an opportunity to have bulky items picked up curbside once per calendar year. Schedule your Clean Up Day by contacting [Customer Service](#) at least one week in advance. You are allowed up to four bulky items (e.g., furniture, mattresses, appliances) with a weight limit of 200 pounds each.

Bulky Item Collection

Already used your Clean Up Day? Items such as appliances or furniture can be picked up curbside any time for a fee. To schedule this service, please contact [Customer Service](#) at least one week in advance of your regular service day.

E-Waste Collection

Small electronic waste can be placed in your blue recycle container. However, televisions and computer monitors are not accepted and must be collected separately. Large electronic waste can be picked up curbside as part of a pre-scheduled Clean Up Day as a bulky item or can be picked up on your regular service day for a fee.
