

GREENWASTE ACTIVITY BOOK

ABOUT GREENWASTE:

At GreenWaste, everything we do is focused on helping to recover, recycle, and reuse waste materials in the most innovative, environmentally responsible, and reliable ways possible.

Our GreenWaste San Jose Material Recovery Facility is California's first high diversion organic waste processing facility.

Our network of Construction & Demolition (C&D) facilities recovers and recycles debris to be turned into new products, like mulch and road fill.

Our GreenWaste Renewable Energy Digestion Facility composts food waste and turns it into energy to produce renewable energy and feedstock for compost.

Our GreenWaste Z-Best Composting Facility transforms yard trimmings and food waste into a nutrient-rich organic compost for farmers and gardeners.

QUOKKAS ARE...

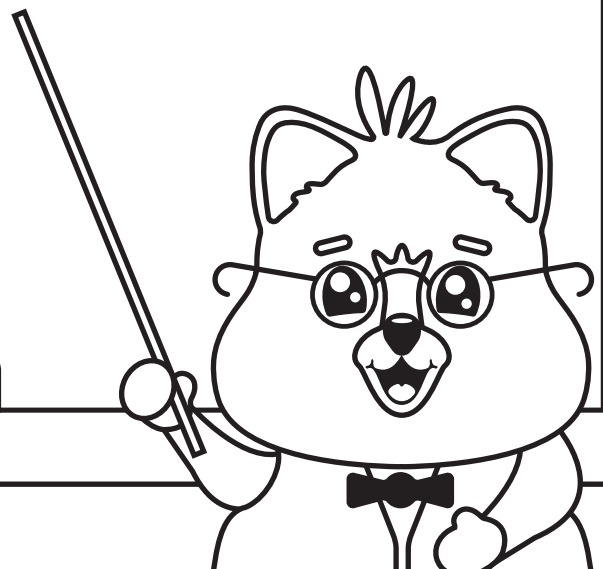

Mammals that have a pouch (like a kangaroo) and are herbivores (which means they eat yard waste, basically making them mini composters!).

Resourceful because they store fat in their tails and draw from it when food is scarce.

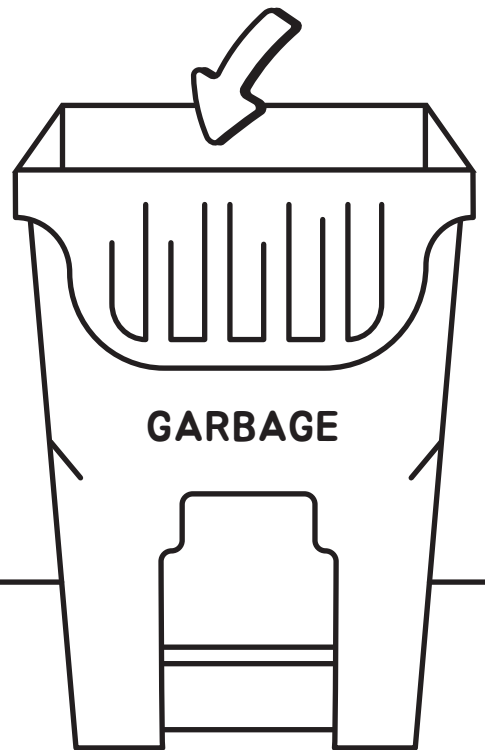

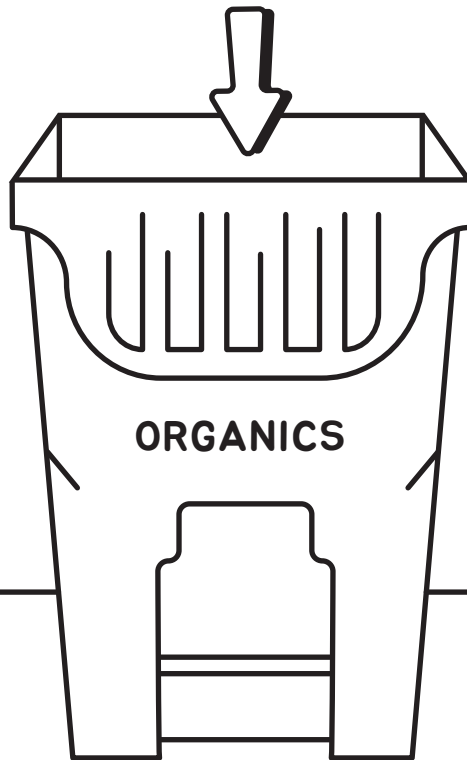

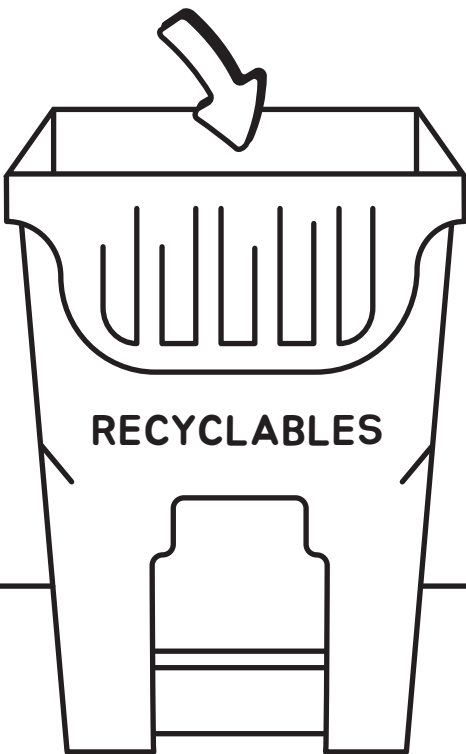

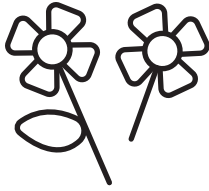

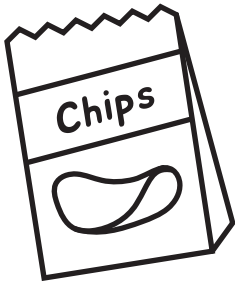

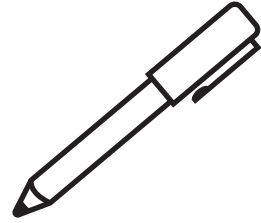

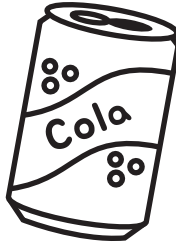

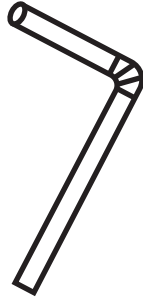

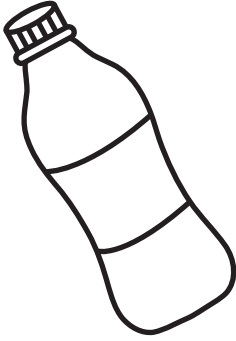

Innovative because they create tailored routes to use as runways for feeding and/or escaping predators.

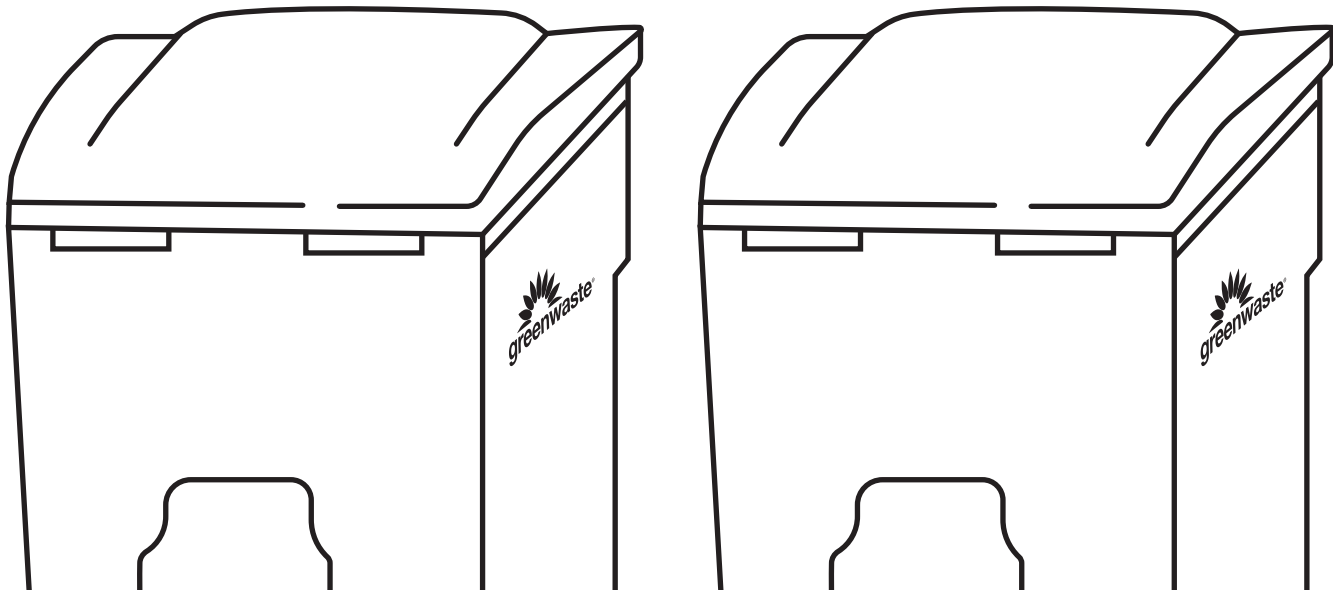

HELP US SORT STUFF!

Draw a line to the correct cart.

SORTING STARTS AT HOME

The better you sort your waste into the correct carts at home, the easier it is for GreenWaste to recycle it! Our friendly truck drivers take your trash to one of our sorting centers to pull out items that can be recycled and turned into something new.

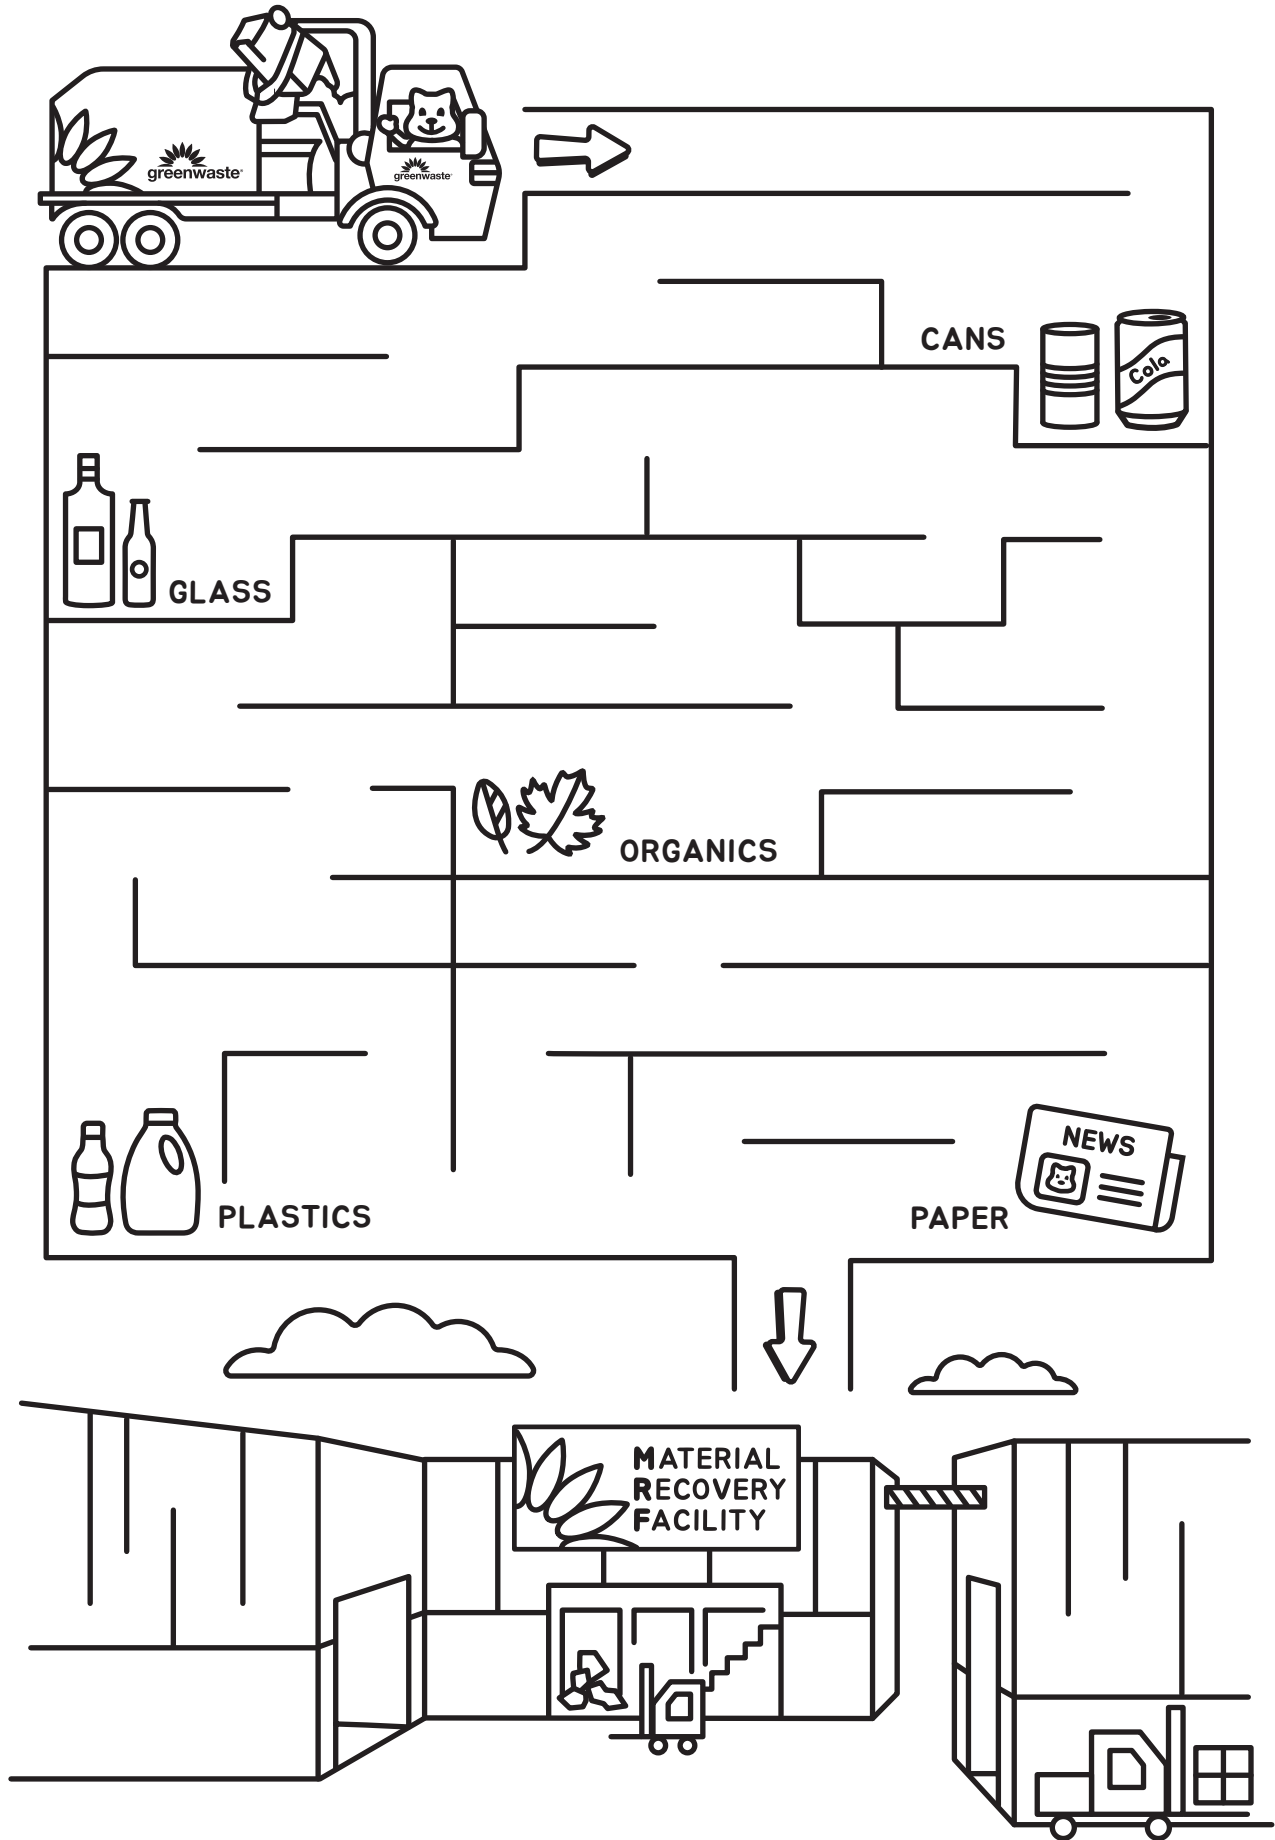

Page 2 Answers:

Recyclables: Water Bottle, Newspaper, Soda Can

Organics: Flowers, Leaves

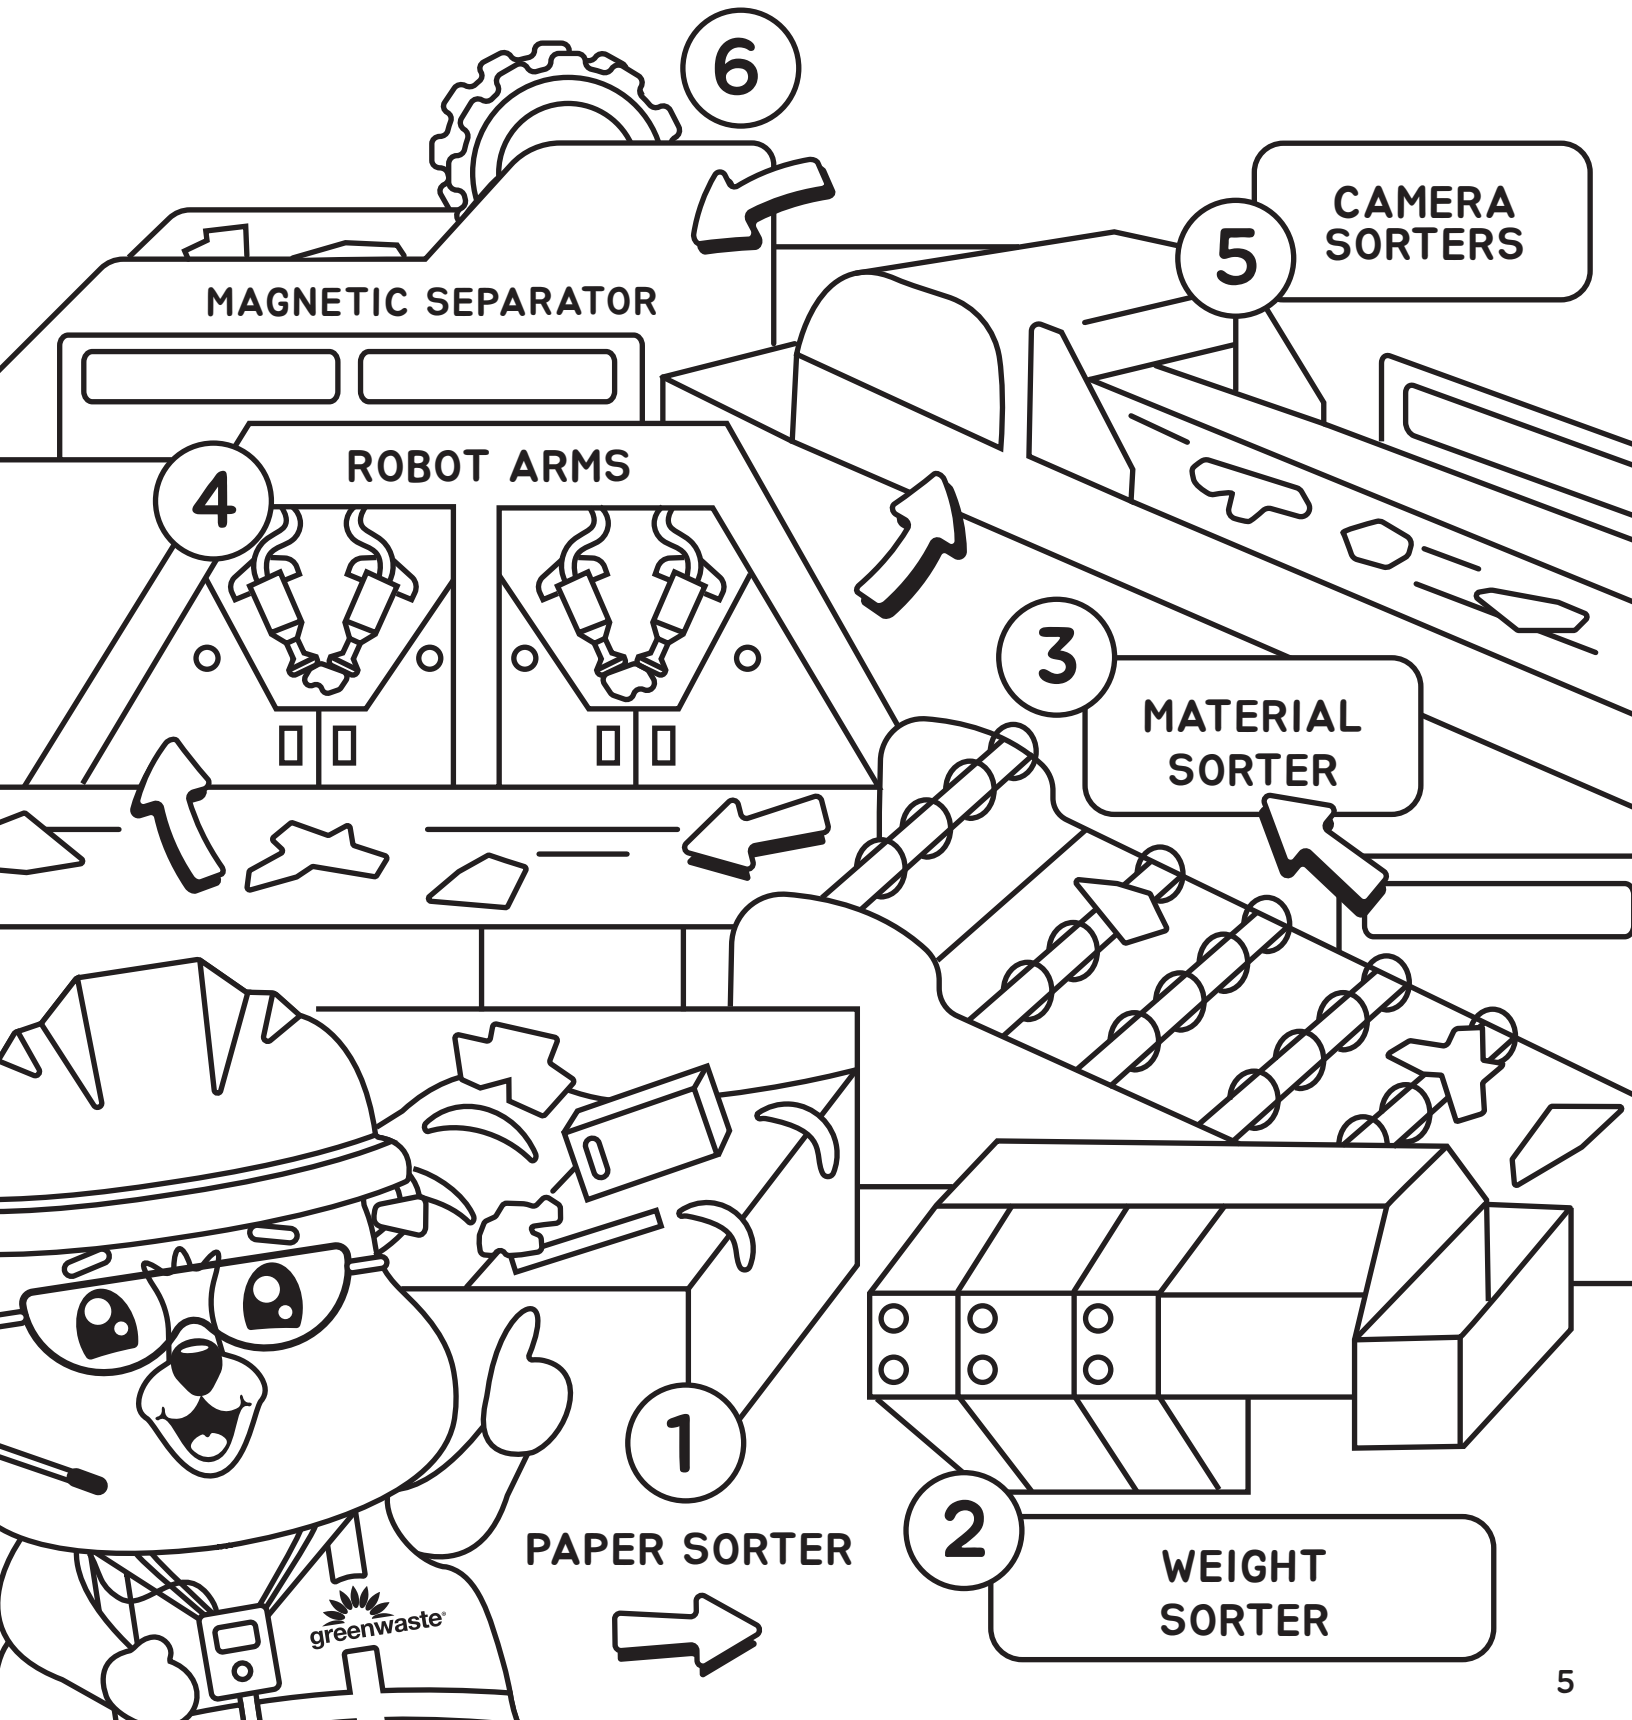

Garbage: Chip Bag, Straw, Pen

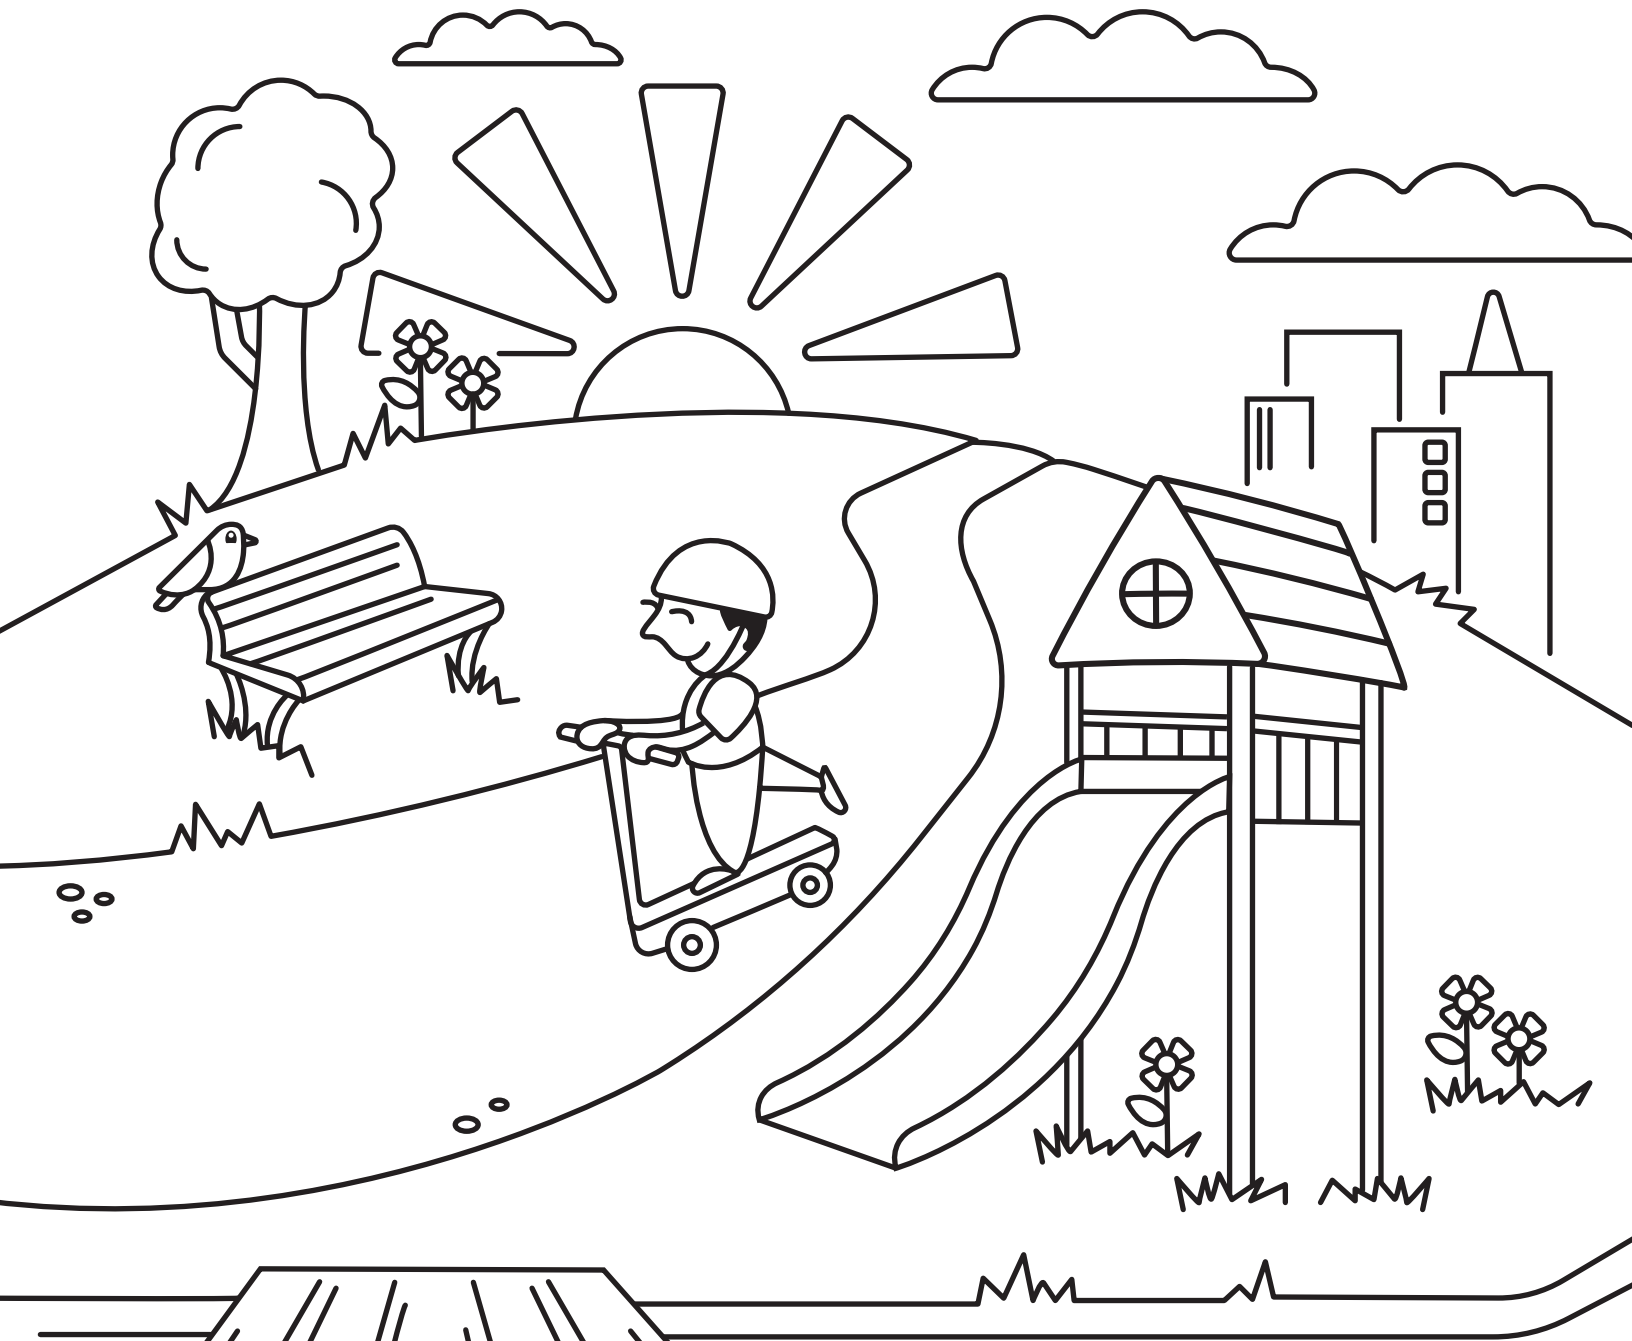

HELP THE DRIVER FINISH THEIR ROUTE

SORTING MADE EASY

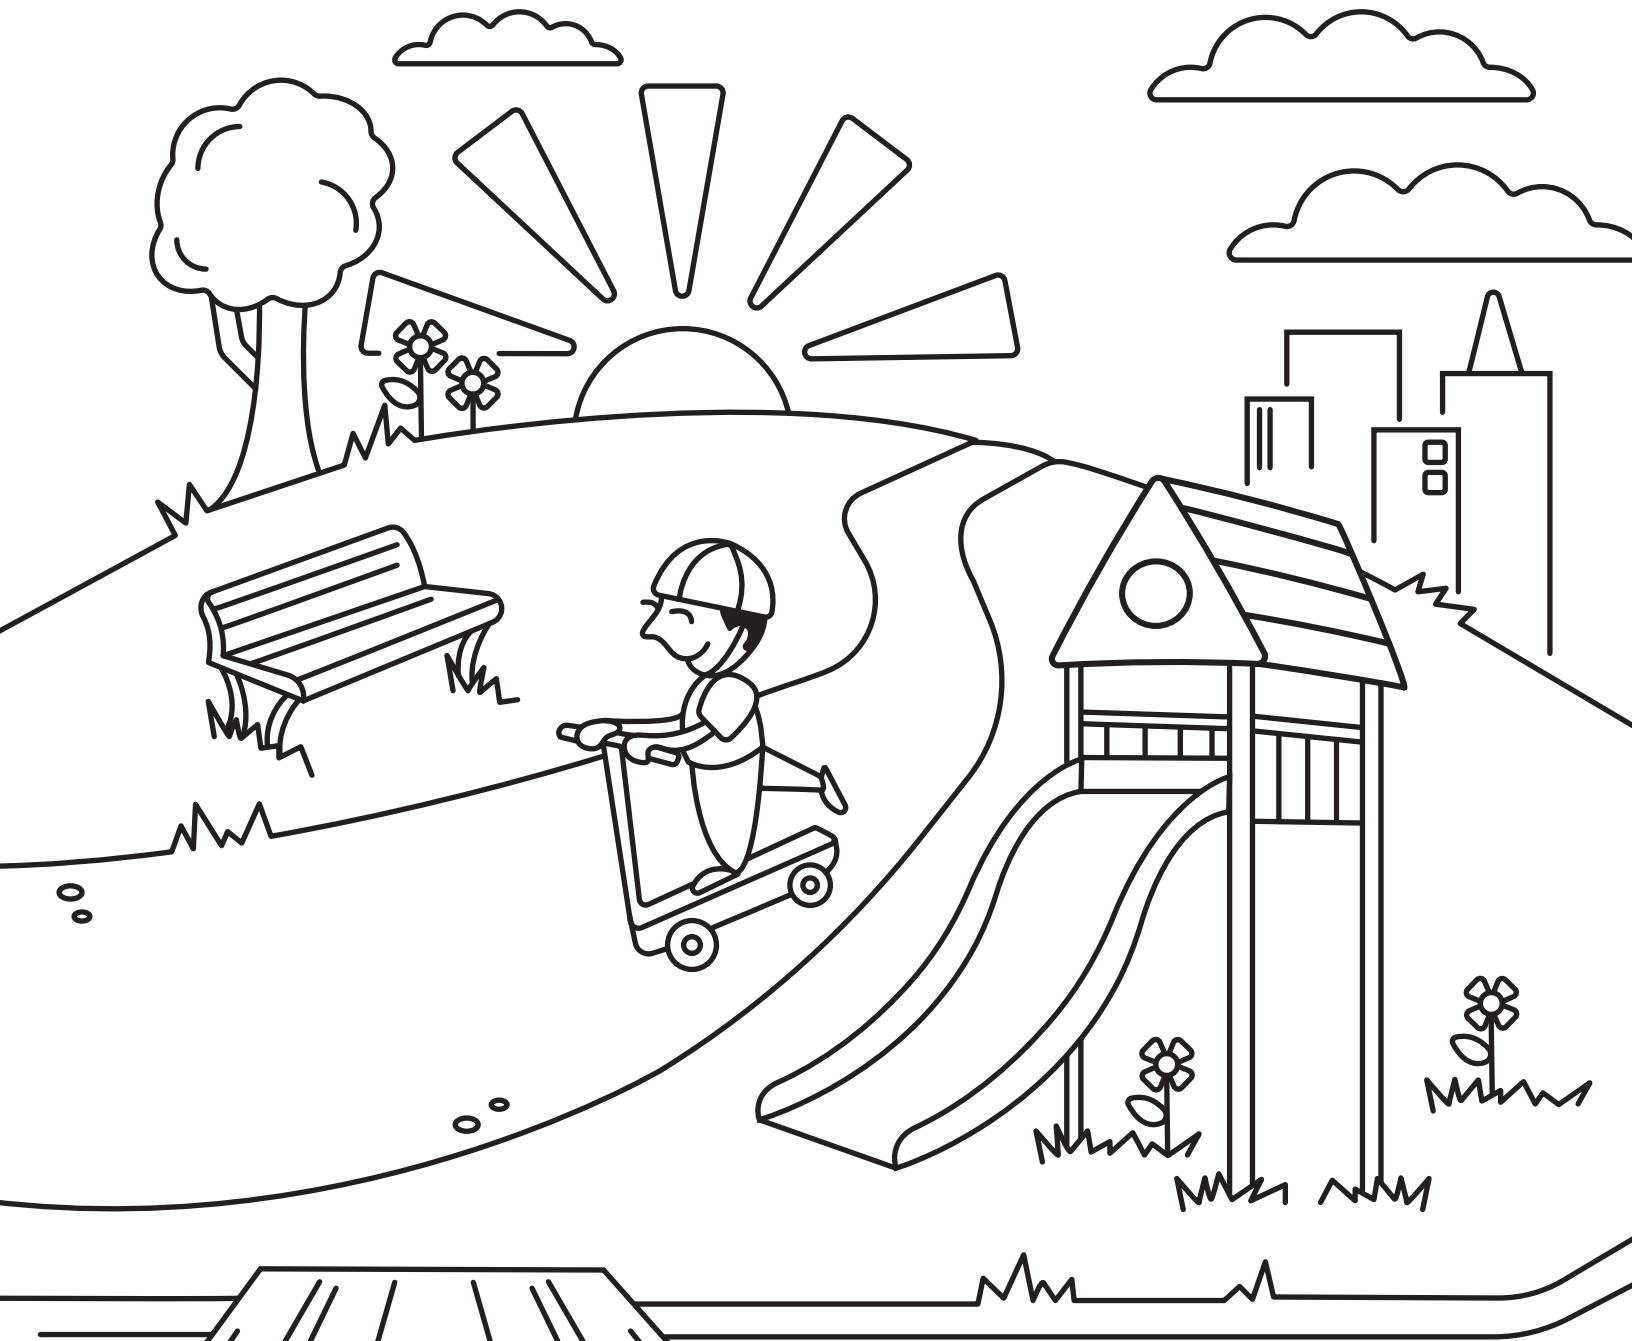

At GreenWaste's sorting center, our team members work alongside robots and machines to sort every piece of trash you throw into your cart.

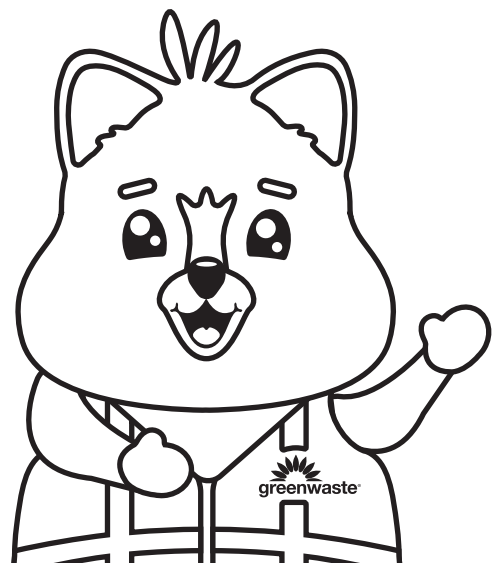

FIND THE DIFFERENCES

FIND THE DIFFERENCES

TURNING TRASH INTO TREASURE

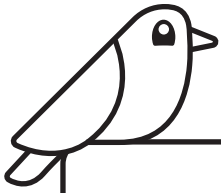

At our construction and demolition centers, GreenWaste's big machines take things thrown away, like old tree branches, and turn them into recycled materials like mulch that can be spread on playgrounds and in your garden!

LEARN ABOUT OUR COMPOSTING PROCESS WITH THE QUOKKA

Ever wonder how GreenWaste composts your yard trimmings and mixed organics? Follow the Quokka as he guides you through the composting process at our GreenWaste Z-Best Composting Facility!

YOU CAN BE A QUOKKA TOO!

Cut out the quokka and attach a string (with help from an adult) to create your own quokka mask!
