Keep These Items Out of the Garbage Container

To keep your community safe and healthy, be mindful of what you put in your gray trash cart. Some items don't belong in the trash, and some are dangerous (even illegal) to dispose of that way.

Keep these items out of the trash:

 **Food and yard trimmings** – Plant and food scraps go inside your green organics cart.

 **Recyclable items** – Glass, metal, cardboard, paper, and plastics (#1, 2, 5) go in your blue recycling cart.

 **Textiles** – Donate textiles like blankets, clothing, etc. that have useful life remaining.

 **Hazardous materials** – Chemicals, batteries, paint and other hazardous products pose serious risks to human health and the environment if not handled properly.

 **Electronic waste** – Computers, cell phones and other electronics often contain harmful components that can contaminate soil and water if not recycled properly.

 **Bulky waste** – Tires, large appliances, mattresses, furniture and construction debris are not suitable for regular trash disposal because of their size and potential impact on landfill capacity; they often have recoverable, recyclable materials.

By avoiding the inclusion of these materials in your trash cart, you can help safeguard the environment and promote sustainable waste management for your community. Don't know where an item goes? Check www.whatgoeswhere.info or download the What Goes Where app!

Holiday Pickup Schedule

Collection does not occur on Thanksgiving Day November 23, Christmas Day December 25, or New Year's Day January 1.

If an observed holiday falls on a regular collection day, collection for the remainder of the week will be delayed by one day. Please put your carts out for service by 6 a.m. on the collection day. For more information, please contact GreenWaste Customer Service at 831.920.6707.

The Right Stuff

How can you minimize waste if you don't know what you're throwing away? Check your trash to see if members of your household are putting items in the trash that could be diverted to other bins. Recyclable items like plastic bottles, paper, cardboard and metal cans should be separated out from the trash and put in the blue recycling bin. Organic materials like food scraps, cut flowers and plant trimmings can be separated into a kitchen scrap pail, and go in the green organics collection bin.

Putting the right materials in the right place can reduce your trips to the trash, and may help your property keep waste collections costs to a minimum. For a list of acceptable items for each stream visit www.greenwaste.com or download the free What Goes Where app.
